

CALL FOR PAPERS

REM 2018 is held in the city of Delft, a beautiful historic town in the Netherlands, south of The Hague and north of Rotterdam. The REM Conference is a 2-day annual event dedicated to research and education in advanced Mechatronics.

The conference is organized by the The Hague University of Applied Sciences and is promoted by the International Network of Mechatronics Universities with the goal to stimulate the exchange of experiences in Mechatronics research and education.

7-8th Jun 2018 - REM 2018

Topics

Topics of interest include, but are not limited to:

- Mechatronics systems design
- Actuators and motion control
- Robotics and applications
- Haptic systems
- 2D and 3D vision systems
- Machine learning
- Mechatronic measurement systems
- Autonomous vehicles
- Transportation and automotive
- Modeling and simulation
- Systems engineering
- Optomechatronics
- Human Assist Techn.
- Bio/nano-mechatronics
- Smart Industry
- Mechatronics project education
- Trends in teaching mechatronics
- Engineering Education (e.g. CDIO)
